PROFILE

I am a Front End Web Developer looking for a great opportunity to put my skills to use. Team player with excellent communication skills, passionate about building user-focused websites and wanting to learn more. I aspire to join a team that values collaboration, agile processes, and developer growth.

WORK EXPERIENCE

IKEA - Prep & Flow
Centennial, CO   Aug 2019 - Current
- Utilize inventory control applications on a Honeywell D75e handheld computer running Android, to determine location of products for stocking and process products for placement in the warehouse.

DevMountain - Web Developer
Brodium
Lehi, UT   Jun 2019

brodium.dtour.world

Workplace communication platform that brings in customer reviews as context for discussion.
- **HTML5**, **Sass**, **CSS3**, **JavaScript**, **Axios**, **ReactJS**, and **Redux** for the stylings and functionality on the frontend. **Amazon S3** to host user profile images.
- **Node**, **Express**, **Massive**, **SQL** for handling requests and database for the backend. **BcryptJS** for authentication.
- Built **RESTful APIs** in **JavaScript** and **Express**.
- **NodeMailer** to initiate team-member onboarding process via email. Chat rooms created using **Socket.io**. **Cron** was utilized to query Google Places for business reviews once a day.
- **Cypress** for end-to-end testing. **Jest** for unit testing.
- The entire app was built using **React hooks**.

DevMountain - Web Developer
Hiut Clone
Lehi, UT   May - Jun 2019

hiut-clone.happycoder.io

Clone of the major features of Hiut Denim's eCommerce site.
